-------------------------------	--

The point(s) at which fish and fish products may enter a chain of custody:

The main points of landing for these fisheries are all New Zealand ports.

The scope of this certification ends at the points of landing which are described above. Downstream certification of the product would require appropriate certification of storage and handling facilities at these locations. Fish and fish products from the fishery may enter into further certified chains of custody and be eligible to carry the MSC ecolabel.

No Inseparable or Practically Inseparable (IPI) catches are allowed under this certificate.

The parties, or categories of parties, that are entitled to use this certificate to enter fish from the certified fishery into certified chains of custody:

The client group members list can be found at the msc website. Eligible vessels can be confirmed by contacting Deepwater Group Limited or Lloyd's Register for contact details.

In the course of the certification it is possible that further companies/vessels may join the client group. Those not a part of the DWG are required to have a certificate sharing agreement. The certificate sharing confirmation can be found on the MSC website.
